Your Druggist is More than a Merchant.

THIS IS PHARMACY WEEK—Closely allied with the practice of medicine is the preparation of medicine. Your druggist, like your family physician and nurse, provides the community with a service it could not well do without. In visiting the drug store, when you need anything it has to offer, you protect yourself in two ways: "By supporting a Protective Institution." "By securing merchandise guaranteed by your druggist's scientific knowledge.

Who Does Your Printing?

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how prone many are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay for them. Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.

CARBON TRADING CO.

CARBON MUNICIPAL DISTRICT HOLDS REGULAR MEETING

A meeting of the Carbon Municipal district was held in the Municipal office, Carbon, on Friday Oct. 12, councillors S. N. Wright, W. H. Levins, R. S. Near, J. J. Neher and O. M. Grieco going present.

Mr. Cooke, representing the J. D. Adams Machine Co. gave a moving picture demonstration of a road maintainer and also of an elevating grader, with a view of selling the Carbon municipality an Adams No. 6 one man road maintainer. The matter was discussed and a motion was passed authorizing the purchase of such a road maintainer, the cost being \$900. The new maintainer is expected to arrive at Hesketh this week and work will commence immediately with a view of going over all the new road that has been constructed this year, filling in the ruts and otherwise putting the roads in shape.

The Annual Convention of the Municipalities will be held this year in the Palliser Hotel, Calgary, on November 21, 22 and 23, and Mr. S. N. was elected as delegate to attend this convention on those dates.

English Church Service will be held in the Farmers' Exchange Hall next Sunday at 3 p.m.

THREE HILLS PRESBYTER Y

(Received too late for last issue)

The second regular meeting of the newly instituted Presbytery of Three Hills met in Knox Church, Three Hills on Wednesday, October 3rd, at 3.00 p.m. Rev. C. B. Oakley, Carbon, Chairman, of the Presbytery, in the chair.

The following ministers were present: C. B. Oakley, chairman; A. R. Schrag, Three Hills, E. J. Heuer, Missionary at Delburne; W. McNichol, Elmore; Dr. Powell, Supt. of Missions; W. E. Siebert, Superintendent of General Work; T. Taylor, Bashaw; R. T. Harden, Mirror; J. C. MacLennan, Acme; R. W. Hibbert, Secretary R. Education; F. J. Hartley, Secretary; and the following lay representatives: J. W. Spiece, Mirror; T. J. Smith, Trochu, and J. B. McCubbin, Three Hills.

The meeting was opened by a hymn, a scripture reading and Messrs. MacLennan and Schrag leading in prayer. This being a Missionary Presbytery a good deal of time was devoted to Rev. Wm. McNichol's report on Home Missions.

It was plainly evident that effort was being made by the ministers to overtake large fields in many sparsely settled districts—one man supplying four different appointments in the one Sunday and driving sometimes sixty miles.

The committee was asked to make a survey of the unoccupied territory and visit several fields where difficult situations were requiring attention. Our students have done excellent work this summer. Swallow, with a very pretty and commodious church, are asking for supply and the United Church is already finding difficulty in giving adequate supply to needy places. Mr. Fred Gardner pleaded his cause so eloquently that the Acme Minister and Session are asked if they can supply Swallow for the winter months.

The fund known as the M. and E. Fund is now called the Maintenance and Missionary fund. The Presbytery accepted the allocation of \$2000 as proposed by the convener, Rev. A. R. Schrag, and the congregations generally will reach their allocation.

When the Presbytery reassembled United Church people listened to addresses by Rev. W. McNichol, on the General Council which he had attended, and Rev. Dr. Powell delivered an inspirational address.

Mr. Smith sang a solo which was well received.

The morning sederunt, which met at 9.00 a.m., was interesting. Arrangements were made to hold institutes, one at Three Hills and the other at Alix about the beginning of November.

The Presbytery adjourned to meet at Elmore, time to be arranged by the Chairman and the Secretary.

CURLING CLUB DANCE PROVED VERY SUCCESSFUL

The first of a series of dances to be put on by the Carbon Curling Club, was held last Wednesday evening in the Farmers' Exchange Hall, and a good crowd turned out for the event, a number of revellers being present from Swallow and Hesketh. The music for the evening was furnished by Campbell's orchestra and was up to the standard in every respect. The Curling club cleared in the neighborhood of \$28 on this event.

TENNIS NOTES

The Carbon Tennis Club are arranging for a dance in the Farmers Exchange Hall on Wednesday October 24th. This promises to be the event of the season as the committee in charge are making every effort to ensure that this dance will be a success. They have engaged Tom Shaws 4-piece orchestra from Calgary to provide the latest and brightest dance music going and are decorating the hall on a plan entirely their own.

THRESHING IS RESUMED IN THE CARBON DISTRICT

The snow last week delayed harvesting for three or four days and many of the outfits that would have finished up by the week end were compelled to lay off till Monday of this week, when the weather turned fine and the grain was dry enough to thresh. This was the first break in harvesting since it was commenced and practically all the grain in the district is now threshed. There is still a shortage of cars to handle the new crop, although the break in the weather helped to relieve the situation and give the elevators some time in which to make room for the incoming grain.

The Farmer and the Research Worker

The prairie provinces of Canada have completed the harvesting and threshing of the greatest grain crops in the history of Canada, judged from the standpoint of volume. It is conservatively estimated that the wheat crop alone will not be less than 500,000,000 bushels, and that the other four principal grains, oats, rye, barley and flax, will add close to another 500,000,000 bushels to the total bringing Canada's grain yield for the first time within measurable distance of a billion bushel crop.

In almost every respect the season of 1928 was ideal from the standpoint of seeding, growing, cutting and threshing and the acreage seeded showed a substantial increase over former years. There was an absence of rust and other parasites, ample moisture, taking the country as a whole, and generally an absence of those conditions which result in a lowering of yield. The only fly in the ointment was the killing frosts of the third week in August which caught the later sown crops and those which from one cause or another had not matured. The result was disastrous from the standpoint of grades, and consequently materially lowering in prices of a large part of the total production.

According to a rough estimate of the Saskatchewan crop it is stated that about one-third of the wheat will be of the contract grades of 1, 2 and 3 northern, that another one-third will grade number 4, and that the remaining one-third will grade below that figure.

It is within the power of our farmers to partly offset the losses occasioned by dry seasons through the adoption of the most scientific methods of farming; they can increase yields and grades by using good, clean seed and by waging continuous warfare on noxious weeds; they can insure their crops against hail. But they stand helpless before the icy clutch of Jack Frost.

Addressing the annual convention of the Saskatchewan Division of the Canadian Weekly Newspapers Association, at Regina, recently, Hon. W. R. Motherwell said he knew of only one way to beat out Jack Frost, and that was to get ahead of him. He had reference to the development of wheat with earlier ripening qualities. In this connection he made mention of the valuable time gained through the development of Marquis over the old Red Fife, and brought the cheering message that as a result of the experiments this year with Garnet and Reward, there was every expectation that a further notable advance would be made. According to Mr. Motherwell, where Reward wheat was grown by farmers in all the prairie provinces, under arrangements with the Department of Agriculture, in over 90 per cent. of cases Reward was safely in stock before the August frosts. He expressed himself as quite hopeful that western farmers would yet be in a position where they could and would beat out Jack Frost.

Experiments have been conducted for some time past to determine to what extent the drying processes for damp wheat affects milling and baking qualities, and recent announcement is to the effect that, on the whole, the quality of the wheat is not seriously affected.

Now the Universities of the three prairie provinces and the Dominion Research officials are engaged in determining the effect which frost has on milling and baking qualities. Hundreds of farmers this year have had the experience of marketing wheat, weighing the full sixty pounds or more to the bushel but which, because of frost effect on the chaff, has been graded away below what would otherwise have been obtained. Rightly or wrongly there is an impression that this frost, while marring the appearance of the kernel, does not seriously affect the quality, and that the producer is sustaining a loss all out of proportion to the amount of damage done the grain; that, in a word, while the farmer-producer loses, the miller gains because he secures good milling wheat at a much less cost. The scientists are now striving to get at the real truth of the matter.

Thus are research workers for Governments and Universities working hand in hand with the farmers in endeavoring to advance the interests and prosperity of agriculture,—through the development of earlier ripening grains, the elimination of rust, and in determining the actual effects of moisture and frost on the true commercial value of grain. The effort is to save hundreds of millions of dollars to the agriculturists of Canada.

Canada is spending more money than ever before in scientific research work, and the Dominion Government announces that such expenditures will be still further increased. No body of men in the Dominion stands to gain more from such work and expenditures than do the farmers of the West. The whole weight of their influence should be back of this enlightened policy.

Small boy: "Say, mister, give me a pound of oysters."

Dealer: "We sell oysters by the measure, my boy, not by the pound."

Small Boy: "Well, then, give me a yard."

"Hey, Miss Watsyourname!" shouted the boss. "What's the phone number of Brown & Company?"

"O," replied the new stenog, dabbling her nose, "approximately 2006 Something."

When Food Sours

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been over-stimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient, and

harmless. It has remained the standard with physicians in the 50 years since its invention.

It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions. Any drugstore.

Canadian Weekly Newspaper Association

Saskatchewan Division Elects Officers At Convention Held in Regina

Sam. R. Moore, publisher of the Swift Current Sun, was the unanimous choice of the Saskatchewan division, Canadian Weekly Newspaper Association, as president for 1928-29. The election of officers was held at the closing session of the two-day convention of the organization held at the Hotel Saskatchewan, Regina. Officers elected are: Hon. S. J. Latta, honorary president; C. R. McIntosh, M.P., North Battleford, honorary vice-president; T. H. B. McCullough, the Review, Weyburn, immediate past president; Sam. R. Moore, president; H. G. Sheldrake, North Battleford, Optimist, vice-president; S. J. Dornan, the Despatch, Alameda, secretary-treasurer, and the following members of the executive, W. Ashfield, The Sun, Grenfell; B. M. Frith, The Recorder, Wakaw; R. Zubac, The Citizen, Kerrobert; W. T. Morphy, The Sun, Viscount; Andrew King, The Enterprise, Rouleau; S. N. Wynn, The Enterprise, Yorkton.

Upon the invitation of the Regina City Council and the Regina Board of Trade, Regina was decided upon as the meeting place for 1929.

ARE YOU AFRAID OF YOUR MEALS?

Proof That the Stomach Is Weak and Needs Toning Up

Are you one of the many sufferers who dread meal time? Hungry, and yet afraid to eat, because of the pains and discomforts that follow. When the stomach is out of order the whole system suffers, and as the blood becomes thin and watery it becomes increasingly difficult to correct the digestive disorder. There is no tonic for the stomach that is not a tonic for the whole body; thus a blood-building tonic such as Dr. Williams' Pink Pills, not only relieves indigestion, but adds to the general strength. Mr. D. J. Shaw, Sellkirk Road, P.E.I., has proved the value of Dr. Williams' Pink Pills in a severe case of indigestion and relates his experience for the benefit of other sufferers. He says:—"I suffered from indigestion for a number of years. My case was so bad that words fail to describe it. My appetite was gone, constipation was present, and my nerves were all on edge. I could not sleep well at night, and the world was a dark spot for me. I tried a number of remedies, but without any benefit. Then Dr. Williams' Pink Pills were recommended, but without much faith, after so many failures, I decided to try them. After taking three boxes I noticed a change for the better. Then I got three boxes more and found I had a genuine remedy. I continued the treatment, took moderate exercise, could take plain food without suffering as formerly, and proved that these pills make good blood, and that this good blood will restore the stomach and nerves. Anyone suffering from stomach or nerve troubles will make no mistake in giving Dr. Williams' Pink Pills a fair trial."

Dr. Williams' Pink Pills are sold by all medicine dealers or will be sent by mail at 50 cents a box by The Dr. Williams' Medicine Co., Brockville, Ont. Write today for a copy of the free booklet "What to Eat and How to Eat."

Many of us are kept out of a lot of mischief by being out of funds.

Headache? Relieve with Minard's Liniment.

N. W. U. 1755

ASPIRIN

Headaches may be swiftly and safely relieved by an Aspirin tablet. A most efficient remedy, and there's no after effect; its use avoids much needless suffering. Try it next time; see how soon its soothing influence is felt. Just as helpful when you have a cold; neuralgia, neuritis, rheumatism, lumbago. Just be certain you get real Aspirin—the genuine has Bayer on the box, and on every tablet. All druggists, with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trademark.

The heart of the average adult is 5 inches long, 3½ inches broad and 2½ inches thick.

Minard's Liniment for sprains.

"Is Betty a good cook?"

"No, but she can change a tire!"

Cloth woven by Mayans 2,000 years ago in America has been found, according to Prof. Franz Blom, of Tulane University, New Orleans.

The need of the times is a vehicle you can ride down town and then fold up and carry into the office.

Nail GYPROC right over Old Walls

GYPROC Advantages for Farm Buildings

Easy to use.
Low cost.
Workable as lumber.
Cannot warp, bulge, crack, shrink or burn.
Takes any decoration.

Resists heat and cold.
Vermin proof.
Eliminates repairs.
Ideal for lining garages, poultry houses, barns, grain bins, and other farm buildings.
Especially suitable for converting attics and basements into extra rooms.

How many rooms in your home have walls that are cracked and faded? Make them "good as new" by nailing Gyproc right over the old, unsightly wallpaper. When you've decorated with Alabastine your home will be as attractive and comfortable as any home can be.

Use Gyproc for partitioning off extra rooms, renovating attics and basements, and making grain bins, stables and other farm buildings fire-safe and vermin-proof. You can put it up yourself—easily, quickly and at a substantial saving.

Gyproc Joint Filler applied at all the joints insures a perfectly smooth, flat surface that will take any decoration.

AUCTION SALE -- OF -- SCHOOL LANDS

PUBLIC NOTICE is hereby given that an auction sale of School Lands will be held in the Province of Alberta, at the place, on the date and including the territory hereafter mentioned:

DRUMHELLER— Thursday, November 8th, 1928, at 9 o'clock a.m.

comprising Tps. 26 to 33 inclusive, Rges. 14 to 23 inclusive, W. 4th M.

The sales will convey the surface right only and will be subject to the usual reservations in favor of the Crown.

The lands will be offered in quarter sections, or portions thereof, subject to a certain upset twice in each case, and will be sold without regard to persons who may be in illegal occupation of same, but such persons will be allowed a period of thirty days from date of sale within which to remove any improvements they may have placed on the land, which are not the property of the Crown.

Where land sold has been put under cultivation by the holder of a permit, or any other person, the sale is subject to the right of the permit holder or said person to remove prior to the 31st December, 1928, the crop grown thereon.

Where land sold is held under grazing permit, such permit will become inoperative on the date of sale.

Where a parcel of land is sold, the holder of a cultivation or grazing permit thereon will be allowed until the 15th day of May, 1929, within which to remove therefrom any fencing or other improvements, not the property of the crown, placed upon such land under the provisions of said permit.

A purchaser shall at time of sale, or upon demand of the Department, pay for any area in summerfallow upon the land at the date of sale at a valuation placed thereon by an official of the Department.

TERMS OF PAYMENT

One-tenth in cash at time of sale, and the balance in eighteen, equal, annual instalments with interest at the rate of six per cent per annum on the balance of the purchase money from time to time remaining unpaid, except in cases where the area of the land sold does not exceed forty acres, in which cases the terms of payment shall be one-fifth in cash and the balance in four, equal, annual instal-

ments, with interest at the rate of six per cent per annum; overdue payments whether principal or interest, to bear interest at the rate of seven per cent per annum.

SCRIPT OR WARRANTS WILL NOT BE ACCEPTED IN PAYMENT.

Upon a parcel of land being knocked down, the purchaser shall immediately pay to the Clerk of Sale the amount of the first instalment; otherwise the parcel will at once be put up again.

Payment may be made in cash or by a marked cheque on any chartered bank of Canada, made to the purchaser's own order and payable at par at point of sale.

Purchasers may, at time of sale, pay in full or any amount desired in excess of first instalment.

CHEQUES WILL NOT BE TAKEN IN PAYMENT, UNLESS MARKED ACCEPTED BY THE BANK ON WHICH THEY ARE DRAWN.

Lists, giving full particulars of the lands to be offered, may be had on application to the Acting Commissioner of Dominion Lands, Department of the Interior, Ottawa, Ontario, or to any agent or sub-agent of Dominion lands in the Province of Alberta.

N.B. For sales in other districts, see posters in Post Offices.

By Order

J. W. MARTIN

Acting Commissioner of
Dominion Lands

Department of the Interior,
Ottawa, 1928.

CARD OF THANKS

Mr. and Mrs. Chas. W. Fuller and family wish to thank the many friends of Carbon for the kindness and floral tributes towards the recent bereavement of Harry Vincent Fuller.

WHEAT POOL NOTES

The Alberta Wheat Pool has made its final payment, this being 2 3-4c per bushel for wheat delivered to the 1927-28 Pool, except for a few minor grades. The total of this payment was \$1,955,693.85.

The Pool paid the following prices for wheat delivered from the 1927 crop: 1 Northern \$1.42 1-4; 2 Northern \$1.35 3-4; 3 Northern \$1.25 1-4; No. 4 \$1.14 3-4; No. 5, \$1.01 1-4; No. 6, 92 3-4; Feed 85 1-4c.

When the Wheat Pool distributed its second interim payment last July 4c per bushel was retained to provide for elevator reserve, commercial reserve and administration cost. It was found but 3 1-2c per bushel were needed for these purposes so the one half cent balance was included in the final payment along with the 2 1-4c per bushel received from the Central Selling Agency.

The administration costs during the past year were nine twentieths of a cent a bushel. The elevator reserve deduction was 2c per bushel, and the commercial reserve was 1 1-20c.

The elevator reserve now totals approximately \$3,650,000. This money has been used to pay for over 300 elevators and the Alberta Pool's share of the terminal elevator at the Head of the Lakes. The commercial reserve now totals approximately \$1,750,000.

These reserve funds are required to develop the physical facilities of the Wheat Pool that the organization is extending very rapidly at the present time. An aggressive elevator building program is being carried out.

[Each member is credited with his

share of the elevator reserve and commercial reserve according to the number of bushels delivered. Interest at the rate of 6 per cent is paid to each member in cash. In this way a real asset is being built up for the growers and at the same time the organization is building up a comprehensive and modern elevator system.

The issuing of the final payment for the 1927 crop ends the business of the Wheat Pool's first 5 year contract period. During that time the Canadian Wheat Pool handled approximately 750,000,000 bushels of grain, with a turnover of one billion one hundred million dollars.

The Pools are entering the second contract period with a splendid membership, increased confidence and \$20,000,000 in physical assets. They are now handling the bulk of their own grain and are working steadily and surely on comprehensive plans to develop Pool facilities all along the line.

In making this final payment the Alberta Wheat Pool issued 47000 cheques. This required the labor of 40 employees for three weeks. Before cheques are issued the ledger accounts have to be balanced in bushels and dollars and cents. Then the cheques are issued and balanced. In this way the number of errors are at a minimum.

PUBLIC NOTICE

The Council of the Municipal District of Carbon No. 278, requests all ratepayers to attend to the payment of Taxes as soon as possible and thereby avoid penalties and enforcement of collections under distraint or by Tax Recovery Proceedings.

ANOTHER HOLT TRIUMPH

Three weeks ago we published in this paper an invitation urging you to investigate what HOLT COMBINED HARVESTERS were doing in your district.

We asked you to make comparisons between the SWATHER and WINDROW PICK-UP system of the HOLT method as against other means of handling grain, and also competitive machines.

You found that our statements were correct—that HOLT was the only 100 per cent perfect system—that users of this method had successfully harvested their crops while stooks were still out in the field—that their grain averaged as high as that gathered by any other method—that they had saved from ONE to THREE bushels per acre in handling and from 15 to 17 cents per bushel on operating costs.

That the ORIGINAL COMBINE--
the "Holt"--wins again over all
competitors and imitations

That users are convinced that harvesting by the HOLT method is the solution of the farmers problems in Canada.

This is the reason why we urged you to investigate while the season was on and we trust you will get an order in early for your HOLT COMBINE FOR THE 1929 SEASON.

WORLD HAPPENINGS BRIEFLY TOLD

The demand for registered seed next year will be even greater than in previous seasons in the opinion of the Saskatchewan Registered Seed Growers' Association in Moose Jaw.

Dr. S. Parkes Cadman, chairman of the China famine relief organization in New York City, received information of the reported massacre of about 200,000 persons by fanatic Moslems in Kansu Province, China.

For the twelve months ending August 31, the Dominion Bureau of Statistics reports that alcoholic beverages valued at \$23,816,178 were exported from Canada to the United States.

More than 1,000 Saskatchewan old timers were in receipt of old age pensions under the plan approved at the last session of the provincial legislature at the end of September and there are about 2,000 more applications under investigation.

Capt. T. P. Workshop, 64, formerly Port warden of Vancouver and one of the first to operate a vessel on the upper Yukon river during Klondike gold rush, died at his home in Kamloops, B.C., after an illness of several months.

Stocks of surplus military explosives, including more than 126,000 pounds of TNT, accumulated by the government during the World War, have been put to industrial uses, the United States Bureau of Mines reports.

Men would do well to copy the fair sex in the matter of scant garments, Dr. Gerald S. Webb, of Colorado Springs, told physicians conferring at the New York Academy of Medicine. Short skirts and light clothing worn by women prevent pneumonia, he said.

Animals

Minard's heals bruises, sores, sprains, saddle boils, distemper, etc.

Knew He Was Safe

"I think we should tak' a walk down the toon and see the shops, lassie," said an Aberdonian to his wife.

"But they're a' shut," she replied. "D'ye think I didna ken that?" he said. "I'm no' daft a' th' gither."

HE DIDN'T THINK DYSENTERY COULD BE RELIEVED

Mr. John Melting, Fenner, Alta., writes:—"I am a returned soldier, and when I came home from overseas I suffered greatly with dysentery. The doctor said it was chronic and did not think it could be relieved. However, he doctored me for quite a while, but did me no good. One day the druggist asked me if I had ever tried

"On his recommendation I bought a bottle and after I had taken it got some relief, so I got two more, and have never had the dysentery since 1925."

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

Shortage Of Butter

Canadian Production Not Keeping Up With Domestic Requirements

J. A. Caulder, President of the National Dairy Council of Canada, told the delegates to the annual meeting of the Dominion Mortgage and Investments Association, that Canada this year would be 15,000,000 or 20,000,000 pounds short of supplying her own butter requirements. The dairy industry has not kept pace with increased population, he said, and Canada had the highest per capita consumption of butter in the world—approximately 28 pounds a year.

WHEN YOUR BABY CATCHES A COLD

In spite of all precautions little ones will take colds—especially during the changeable days of our Fall season. When the first symptoms appear—sneezing, redness of the eyes, running nose—Baby's Own Tablets should be given at once. They will rapidly break up the cold and prevent more serious complications.

Mothers who keep a box of Baby's Own Tablets in the home always feel safe. In fact they are like having a doctor in the house. They are a gentle but thorough laxative that sweeten the stomach and regulate the bowels, thus driving out constipation and indigestion and relieving the baby of the many childhood ailments which are the direct result of a clogged condition of the bowels or sour stomach. They are absolutely safe—being guaranteed to contain no drug at all harmful to even the youngest babe. They cannot possibly do harm—they always do good.

Baby's Own Tablets are sold by all medicine dealers or will be sent by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Value Of Tourist Traffic

No Official Figures On Amount Of Money Spent Have Been Given Out

How much money do people from the United States leave in Canada every year? No official figures have been given out, but guesses run all the way from \$100,000,000 to \$400,000,000. The Royal Bank of Canada estimates that \$275,000,000 was left by United States visitors to Canada in 1927, compared with \$140,000,000 in 1925.

This year traffic has been unusually heavy. In Quebec, which 3,430 cars from the United States entered in 1925, 425,000 cars were expected to enter this year. Ontario shows a much larger figure, but the length of stay is less.

It is estimated that 3,000,000 cars from the United States will have entered Canada before the close of the present year. Canada, seeing what is ahead, is busy spending millions of dollars for good roads.

An Oil Without Alcohol. Some oils and many medicines have alcohol as a prominent ingredient. A judicious mingling of six essential oils compose Dr. Thomas' Electric Oil, and there is no alcohol in it, so that its effects are lasting.

Has Visited Many Countries

The Prince of Wales must by this time be one of the most widely travelled young men of his age. When he returns in January he will have officially visited 27 countries—Canada, Australia, India, South Africa, New Zealand, Malta, Gold Coast, British East Africa, Kenya, Tanganyika, Rhodesia, Nigeria, Basutoland, Sierra Leone, Malaya, West Indies, United States, Argentine, Chili, Egypt, Spain, France, Belgium, Uruguay, Central America, China, and Japan.

Singing Master—Your wife's voice is greatly improved.
Husband—Yes, but not cured yet.

Minard's Liniment for aching joints.

A Frock Of Distinction

Decidedly smart is the frock pictured here. The pointed bodice is joined to the skirt having plaits at front and a slightly flared back, a shaped collar, and long sleeves gathered to deep cuffs. No. 1576 is in sizes 34, 36, 38, 40 and 42 inches bust. Size 36 requires 3½ yards 39-inch or 2½ yards 54-inch material, and ¾ yard 39-inch contrasting for View "B." Price 20 cents the pattern.

Every woman's desire is to achieve that smart different appearance which draws favorable comment from the observing public. The designs illustrated in our new Fashion Book are originated in the heart of the style centers and will help you to acquire that much desired air of individuality. Price of the book 10 cents the copy.

Touches that Add Style to Dresses

By MAE MARTIN

It's amazing to see how easily out-of-style dresses are transformed by a few buttons, a little braid and the quick magic of home tinting or dyeing.

Your tinting or dyeing will always delight you, if you are sure to use only true, fadeless Diamond Dyes. Tinting with them is easy as bluing, and dyeing takes just a little more time. New colors appear like magic right over the old colors. They give all the shades, with never a hint of that redyed look which comes from inferior dyes. Insist on Diamond Dyes and save disappointment.

"Color Craft," my big new book of dollar-saving hints, will be sent you FREE. Write Mae Martin, Diamond Dyes, Windsor, Ontario.

Women voters outnumber men in four constituencies in England, and in two of these, Cheltenham and one Glasgow division, the present M.P.'s are bachelors.

Women and Asthma. Women are numbered among the sufferers from asthma by the countless thousands. In every climate they will be found, helpless in the grip of this relentless disease unless they have availed themselves of the proper remedy. Dr. J. D. Kellogg's Asthma Remedy has brought new hope and life to many such. Testimonials, sent entirely without solicitation, show the enormous benefit it has wrought among women everywhere.

It is said that human beings unconsciously associate a color with a particular sound. To the pedestrian a motor horn suggests both black and blue.

Those who thought that mining was an underground operation will be surprised at the growing use of aeroplanes in that industry.

For COLDS of All the Family

This Modern External Treatment is best

Mothers prefer the external treatment, Vicks VapoRub, for children's colds, because it avoids the constant "dosing" so disturbing to delicate little stomachs. You just rub it on the throat and chest at bedtime.

Other members of the family prefer Vicks for their own colds, because it is convenient, and quick in bringing relief.

For free sample, write Vick Chemical Co., No. 1 Lee St., Greensboro, North Carolina, U.S.A.

SUNDAY SCHOOL LESSON

OCTOBER 21

CHRISTIAN STEWARDSHIP

Golden Text: "First they gave their own selves to the Lord."—2 Corinthians 8.5.

Lesson: 2 Corinthians 8.1-9, 15.

Devotional Reading: Psalm 95.1-7a.

Explanations and Comments

The Example Of Christian Generosity Given By the Churches In Macedonia, 8.1-5.—Paul calls to the mind of his readers, the Christians of Corinth, the example in generosity of the Macedonians (the churches of Philippi, Thessalonica and Berea), and ascribes the latter's large collection for the poor at Jerusalem to God, whose grace, or love, moved them to generosity. Affliction which had put their Christian character to the proof (1 Thess. 2.14), their overflowing joy (1 Thess. 1.6), and their dire poverty, had resulted in spiritual riches, great liberality. For they gave willingly as they were able, and indeed more than they were able, as he, Paul, could testify. Perhaps Paul at first thought the Macedonians too poor themselves to share in this collection, for he now says that they begged the privilege of joining in this grace and fellowship. "The contribution of the Macedonian Christians was really comparable to the giving of the widow's mite."

"Strange to say, it is not those to whom the gospel comes easily, and on whom it imposes little, who are most generous in its cause. On the contrary, it is those who have suffered for it, those who have lost by it, who are as a rule most open-handed. Comfort makes men selfish, even though they are Christian; but if they are Christian, affliction, even to the spoiling of their goods, teaches them generosity."—James Denney.

The collection was to minister to "the saints" (Paul's term for Christ's followers) at Jerusalem. There were several reasons for their poverty. "The religious prejudices of the Jews, amongst whom they lived, entailed upon them constant social persecution, even in times of comparative peace; the claims of Christian visitors upon their hospitality were heavy; the maintenance of the apostles and of a disproportionate number of Christian teachers threw on them an undue share of Christian burdens. But whatever the causes of their poverty, it was certainly chronic."

As a vermifuge an effective preparation is Mother Graves' Worm Exterminator, and it can be given to the most delicate child without fear of injury to the constitution.

Scotchmen are said to be untidy, but they like their whisky neat.

Demand For Registered Seed

The demand for registered seed next year will be even greater than in previous seasons in the opinion of the officials of the Saskatchewan Registered Seed Growers' Association in Moose Jaw.

The Oil Of Power.—It is not claimed for Dr. Thomas' Electric Oil that it will remedy every ill, but its uses are so various that it may be looked upon as a general pain killer. It has achieved that greatness for itself and its excellence is known to all who have tested its virtues and learned by experience.

"You're doing well, young fellow," said the shipping clerk encouragingly, "the foreman praises you to the skies."

"I'd sooner he'd praise me to the boss," was the quiet reply.

A Double Escape

DOCTOR'S DAUGHTER'S STORY

Another Toronto home provides evidence of how a simple cut, scratch or bruise, may pave the way to deadly blood-poison, and how vital is the need for keeping Zam-Buk, always handy?

When called upon at 3, Bushness Avenue, Mrs. J. E. Zealley, daughter of the late Dr. Bevan, of St. David's, S. Wales, said:—"My boy Alfred scratched his leg with the brass tag of a shoe lace. A nasty poisoned sore developed and it defied all the usual ointments. Hearing splendid reports about Zam-Buk I decided to give it a trial. To my great relief, the balm soon caused healing to set in. All inflammation and poisonous matter was quickly removed by Zam-Buk, and it healed the sore without leaving a scar."

"Again when I fell over a steel fender and injured my knee badly, Zam-Buk alone saved me. My daughter, a nurse, was of the opinion that only an operation could remove the mass of inflammation and pus. But I again pinned my faith to Zam-Buk, and it cleansed and healed the wound." All druggists and stores sell Zam-Buk at fifty cents per box. Equally valuable for eczema, pimples, cuts, burns, etc.

CHAPTER III.—Continued.

Janet laughed. "I will go now to give you the chance." With a playful flick of her whip toward Douglas, she was off like an arrow.

Donald turned to his friend. "I hope that you are satisfied now that you have made an ass out of me."

"Quite happy, old dear. I didn't find it a hard job."

Donald laughed. "I'll race you to the gym."

As the bout was to take place on Monday, this was to be the last day of training. The fans who had flocked to see Donald in his work-outs admitted that he had wonderful speed, but would be unable to stay the twenty rounds with the formidable Garrieau. The verdict of the knowing ones was that it would take more than a snappy left hand to lift the laurels from the champion who possessed the virtue of the terrible punch.

To the boxer training is a trying ordeal. The daily grind of road-work, bag-punching, rope-skipping and pulley work becomes monotonous. The nerves become frayed, and if the weight has to be materially reduced the boxer develops a bad temper and is anything but a cheerful companion.

"The wonder metal of the age" is a fitting term for Aluminum. Its lightness, brightness, flexibility, freedom from rust, and many other good qualities, make it adaptable to a multitude of uses, a chief one being as a container par excellence for good tea—Red Rose Tea is packed only in this modern metal package.

WHITE STAR LINE CANADIAN SERVICE

N. W. U. 1755

As Donald prepared for bed that night he thought with relief that the morrow would be a day of rest. "I'll be glad when it's over," he mused. His meditations were interrupted by a rapping on the door. In answer to his invitation to come in, the door opened and a small man of unprepossessing appearance entered.

The visitor was indeed a most repulsive man, of uncertain age, and with skin of a sickly yellow. One eye was sightless, which he ascribed to an accident during a football game. Those familiar with his shady past averred that it was caused by the vigorous application of an adversary's thumb during a bar-room brawl.

"I'm Garrieau's manager," he said importantly.

"What do you want?" demanded Donald shortly.

"Now, see here, Kid. We've got a dead clinch to cop de change. It's dis way. Youse is a amachoor widout a chance in de world to beat de Slugger. Get me? Well, dere ain't a bit of sense of de Slugger beatin' you up for nuttin', so we frames de bout. De heavy bettin' will be on de Slugger, so we fixes it for de Slugger to go 'till about de tent' round, so's it go 'till about de tent round, so's to give de fans a run for dere money. We gets all de money dat we can beg, borrow and steal and puts it on you to win. We puts up a siam-bang fight. You can take de drop a couple of times, and den down goes de Slugger. De fans will just eat it up. De tent' round will find you stannin' toe to toe, den de last minute you sends home de fake sleep-punch. De boobs will t'ink it's on de square. Den in a mont' we gets a return fight and we pulls off de 'grudge stuff' and we packs de house. Of course, we have to win den, and all our money will be placed on de Slugger. Dat means dat we cop de change twice. Get me?"

His ugly lips parted in what he intended as an ingratiating smile. "You come up to de club tomorrow and we rehearses de whole t'ing. Get me?" Donald's face turned pale with rage. "I 'get you,' you damned little rat!" he rasped. Seizing the surprised Pursell by the collar, he jerked him to his feet, dragged him to the door, and threw him out with such force that he struck the wall with a thump and fell in a heap n the floor.

Pursell rose with a snarl that showed his yellow teeth. A look of bestial hate shot from the one gleaming orb. "We'll kill you Monday, you —" The air was filled with the vilest oburgations.

Closing the door, Donald walked to the windows and opened them wide, as though to rid the room of the air his visitor had breathed. "I never dreamed there was so much rottenness in the shape of a human being," he said disgustedly.

At the same hour, at the other side of the city, Douglas was also entertaining a visitor, but of a very different type. He had just entered his room when he heard his sister's voice.

"May I come in a minute, Doug?" Janet came to the point quickly. "Who is this Mr. McLean who was with you today?"

"Oh, that was—er—Donald McLean," he answered evasively.

"You know what I mean. Who is he? What is he, Where does he come from?"

"I'll look him up in Bradstreet's."

"Do be serious, Doug."

"Is it a serious matter, Sis?"

"I think he is interesting," she replied hesitatingly.

"So do I. I liked him the first time I saw him," said Douglas warmly.

"Well, you haven't answered my questions yet," persisted Janet.

For all his fluency of speech Douglas was for the moment nonplussed.

"Let's see—er—what was the first question?" He was sparring for time.

"Don't quibble, Doug. Where did you meet him?"

"I met him a long time ago through an intimate friend by the name of Pettray. McLean is his partner. Firm name McLean and Pettray."

"What is their business?"

"Oh—er—glove business."

There was an interval of silence.

"I'm not a bad little liar," thought Douglas.

"I wonder if she's finished." He yawned strenuously and stretched his arms. "My! I'm sleepy," he said.

Janet rose slowly and moved toward the door.

"Are you going to ask him out some time?" she inquired.

"Sure thing!"

At the door she turned. "Will you let me know when he is coming?"

"Yes, dear."

"Good-night, Doug."

"Good-night, Sis."

Douglas stood for a while staring into nothingness. "I don't blame her," he said aloud. "I don't know anything about him, but I'll bet he is a real man."

CHAPTER IV.

The arena and the grand-stand were packed, the S.R.O. sign having been hung out at two o'clock. The cosmopolitan crowd sat in solid ranks, tier upon tier, from the select ringside seats to the topmost rail. Judges, lawyers, doctors and bankers sat with labourers, miners, loggers, bartenders, and bootblacks. Men of the underworld sat side by side with men that make and administer our laws. There was a sprinkling of Japs, Chinamen and negroes. The turbaned Hindu made bright splotches of colour here and there in the vast sea of faces. Of class distinction there was none; all welded as one in the love of the boxing game.

The preliminaries were over, and the vast crowd had settled in their seats. Suddenly there was a stir, a craning of necks. Down the aisle on the west side of the arena came Donald, followed by Andy and the two seconds, the latter carrying buckets, sponges, towels and bottles. Donald wore a dark-coloured bathrobe thrown over his shoulders. There was a murmur of applause that swelled to a tumult as he clambered through the ropes. He seemed cool as Andy piloted him to the corner, but as he sat down and stretched out his long legs, he appeared ill at ease.

Although the crowd had given him a handsome welcome, prophecies were shouted down from the top seats that he would not last very long with the formidable champion. Donald was palpably nervous, as evidenced in the quick turning of his head and the shuffling of his feet. He looked slight and frail as he leaned forward in his chair, the black bathrobe accentuating the paleness of his face. A feeling of friendliness came over him as he gazed at the huge, strange crowd who were loudly predicting his defeat.

A well-known judge, wearing glasses and a big black hat, turned to his companion. "It's a hanged shame, Tom, to match that slim boy with a brute like Garrieau."

The one addressed was one of the City's leading dentists and an ardent boxing fan. "Don't you believe it,

Bill," he returned. "Just wait until you see this boy strip."

"Here he comes!"

A roar of applause greeted the champion as he came down the east aisle bowing right and left in answer to their plaudits. His dark, massive body seemed fairly to shine as he leaped to the ring with easy grace and stripped off his robe. He stood in his corner with his hands on the ropes, shuffling his feet in the resin, still smiling and glancing about the arena. Evidently he loved the limelight.

(To Be Continued.)

Teeth and Health

Issued By The Canadian Dental Hygiene Council and Published By The Saskatchewan Dental Society

THERMAL CHANGES

You are fond of ice cream during the hot weather, and of iced drinks. But you noticed that upon your last visit to the soda fountain, a certain tooth pained momentarily as you were enjoying your favorite dish.

Or, some toothsome sweet made it "sting"; and also, you found it more comfortable to take your tea not quite so hot. But of course, it isn't bad enough to make a fuss over; a little care exercised and it will be alright again.

So you think. Now what is happening?

You have suspected, and rightly so, a small cavity.

While Nature saw fit to place nerve and blood tissues within the tooth, yet she protected them with the very hard outer covering, the enamel which was meant to remain intact throughout the life time.

But through no fault of Nature, disease has crept in and her plans yet baffled, for she has placed just within the enamel covering, tiny tissue filaments which communicate with nerve endings in the pulp chamber. These respond to thermal changes, sweets and acids, and instantly there is telegraphed to headquarters in the brain, the warning that something is wrong—just as when you put your finger on a red hot stove.

So forewarned, there is yet ample time to prevent more serious trouble if you would but do your part and act promptly by having repairs made.

But do you?

If Miller's Worm Powders needed the support of testimonials they could be got from mothers who know the great virtue of this excellent medicine. But the powders will speak for themselves and in such a way that there can be no question of them. They act speedily and thoroughly, and the child to whom they are administered will show improvement from the first dose.

Little Helps For This Week

"Not my will, but Thine be done."
—Luke xxii. 42.

Whatever my Father wills is best,—Delight or suffering, toil or rest,—Thine eye, and Thine alone, can see What I should have, and do, and be, I only ask that I may know The way which Thou wouldst have me go;

That I, my will in Thine may lose; That what Thou, Lord, for me shalt choose.

I, too, may choose.

—C. W. Harris.

There are no disappointments, it has been said, to those whose wills are bound up in the will of God.

—The Light Of The Conscience.

Dip the stopper of the mucilage bottle in a little melted paraffin before placing it in the bottle and it will never stick.

Are You Ready

When your Children Cry for It

Baby has little upsets at times. All your care cannot prevent them. But you can be prepared. Then you can do what any experienced nurse would do—what most physicians would tell you to do—give a few drops of plain Castoria. No sooner done than Baby is soothed; relief is just a matter of moments. Yet you have eased your child without use of a single doubtful drug; Castoria is vegetable. So it's safe to use as often as an infant has any little pain you cannot pat away. And it's always ready for the crueler pangs of colic, or constipation, or diarrhea; effective, too, for older children. Twenty-five million bottles were bought last year.
